

Maintenance and Noise complaint reporting

1. Maintenance issues - How to report them

1.1 For any student experiencing a maintenance issue, they should report this through the maintenance portal located in the Tenancy Area of the McComb Students Website.
www.mccombstudents.com.

1.2 Staff will investigate each report received. The work will be assigned to a member of the Caretaking Team or to an external contractor.

1.3 If an external contractor is required, things may take a little longer to resolve but we will try to keep you informed of the progress.

2. What happens if the repair cannot be completed in one visit?

2.1 Often defects reported require replacement parts or specialist trades. It may be that on the first visit no repairs are undertaken as parts are identified, there may be delays whilst parts are ordered and that subsequent visits are required.

2.2 We cannot guarantee that a defect reported will be fixed within one visit, if however, the defect impedes on the quality of life for residents we will where possible identify other options available to us. These may include:

2.2.1 a temporary change of room

2.2.2 permanent change of room

2.2.3 provision of additional equipment or access to alternative facilities.

3. Noise complaints – how to report them

3.1 if you are being disrupted by noisy neighbours, you can send a text message to our “Out of Hours” phone number found in your Welcome Pack. Make sure to include your Room number and building and one of the McComb Students staff or security will look to discreetly resolve the issue.
